

Annihilizer[®]

Hypochlorous acid, On-site Generation, Coding and Tracking Technology

AN OVERVIEW

ON-SITE GENERATION

ON-SITE GENERATION WAS BORN OUT OF NECESSITY. SHIPPING A READY-TO-USE PRODUCT ISN'T GOOD FOR THE ENVIRONMENT, NOR IS IT COST-EFFECTIVE. IN THE PAST, ON-SITE UNITS WERE LARGE 220V UNITS AND COST PROHIBITIVE.

OUR GREEN SEAL™ CERTIFIED 110V UNITS CAN PLUG RIGHT INTO A REGULAR OUTLET AND GENERATE A FULL-STRENGTH HYPOCHLOROUS (DISINFECTANT) AND SODIUM HYDROXIDE (CLEANER) ON SITE – WHICH CAN BE EASILY DISPENSED ON-DEMAND.

PATENTED BOTTLE DATING PROCESS

HYPOCHLOROUS HASN'T BEEN ABLE TO TAKE A MAJOR JUMP IN THE COMMERCIAL MARKET, BECAUSE OF ITS SHORTER LIFECYCLE – DUE TO ITS BIODEGRADABILITY. WE'VE FIXED THAT ISSUE, WITH OUR SYSTEM.

INSIDE OF EACH BOTTLE LABEL IS AN RFID/NFC CHIP, WHICH GETS ENCODED BY THE ANNIHILYZER™ KIOSK.

WHEN FRESH PRODUCT IS DISPENSED, A NEW DATE IS ASSIGNED TO IT, WHICH ALLOWS THE USER TO ENSURE FRESH FLUID. JUST SIMPLY TAP, CHECK AND GO!

PROTOCOL TRACKING AND REPORTING

USERS WILL LOG IN ON A MOBILE DATA TERMINAL DEVICE, TAP THEIR BOTTLES (TO ENSURE EFFICACY AND ASSOCIATE THAT EFFECTIVE BOTTLE TO THEIR CLEANING).

THEN THEY TAP THE ROOM DECAL – WHICH DOWNLOADS A SPECIFIC PROTOCOL FOR THAT ROOM/AREA THEY ARE IN. IN THE INSTANCE A MANAGER WANTS TO CHANGE THE PROTOCOL FOR THAT ROOM TYPE, THEY SIMPLY UPDATE IT ON THE DASHBOARD AND THE USER WILL SEE THE CHANGES WHEN THEY CHECK IN ON THE NEXT DAY/CLEANING SCHEDULE.

THE DASHBOARD

MANAGERS CAN LOG IN AND CHECK:

- LOCATIONS
- ROOM REPORTS
- BOTTLE REPORTS
- USER INFORMATION
- COMMENTARY
- KIOSK INFORMATION

ACCESS WHAT HAS BEEN DONE IN THE ROOM, WHO DID THE JOB, THE TIME THE WORK WAS DONE AND A LIST OF COMMENTS (FOR WORK ORDERS OR EXPLANATIONS), AS WELL AS PATHOGEN ALERTS FOR ISOLATION PROTOCOLS IN HEALTHCARE ENVIRONMENTS.

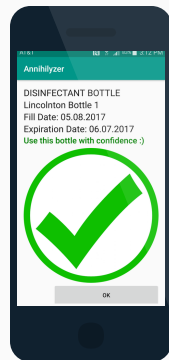

THE SYSTEM - IN TANDEM

USERS CAN DECIDE TO ONLY DO ONE OR THE OTHER, HOWEVER – THEY ARE POWERFUL WHEN COMBINED INTO A 1-2 PUNCH. NOT ONLY ARE YOU GETTING A MUCH MORE EFFECTIVE CLEANER AND DISINFECTANT – YOU’RE ENSURING ITS EFFICACY AND TRACKING HOW IT’S BEING USED – AS WELL AS THE ROUTINE OF YOUR STAFF.

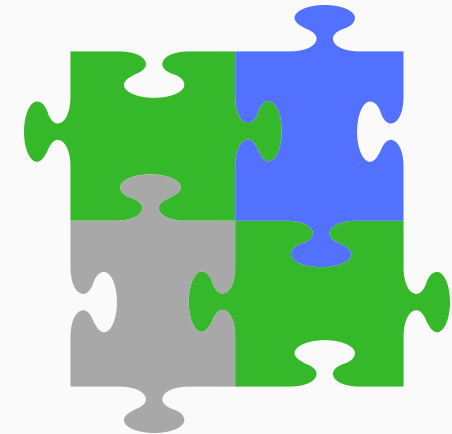

THE ENTIRE SYSTEM LEADS TO SUCCESS AND WORKS TO MAKE YOUR CLEANING AND INFECTION CONTROL SYSTEM SECOND TO NONE.

**HOCL PRODUCTION
