

PCT LTD Receives Additional Purchase Order for Two Large Volume Hydrolyte® Systems from Existing Food Processing Customer

LITTLE RIVER, SC, February 12, 2019--- PCT LTD (OTC Pink: PCTL), through its operating subsidiary, Paradigm Convergence Technologies Corporation (PCT Corp), a leader in environmentally safe, non-toxic, antimicrobial solutions announced today it has received a repeat order for two large volume Hydrolyte® Systems from one of its existing food processing customers. The referenced food processing customer's plant currently has two systems at one facility and purchased another large volume system from PCT as a result of their 2018 plant expansion.

Jody Read, CEO of PCT LTD, commented, "PCT's history of providing its customers with quality equipment that is designed for supportability and built with higher standards has allowed PCT's systems to last longer and with minimal downtime. Our R&D group, headed by Stuart Emmons, P.E., has developed newer and better designs as well as improved reliability."

PCT's new design is being incorporated into all its large volume Hydrolyte® systems that are being used in Agricultural and Oil & Gas markets. The ability to produce thousands of gallons per day, per system, allows for the post-harvest disinfection of fruits and vegetables for agricultural food processing. The Hydrolyte® fluid solutions can also be used to treat existing oil or gas wells to reduce hydrogen sulfide in "sour wells," to reduce maintenance problems, and also to disinfect fracking water used in hydraulic fracturing.

About PCT LTD

PCT LTD ("PCTL") focuses its business on acquiring, developing and providing sustainable, environmentally safe disinfecting and tracking technologies products. The company acquires and holds rights to innovative products and technologies, which are commercialized through its wholly-owned operating subsidiary, Paradigm Convergence Technologies Corporation (PCT Corp). Currently trading on OTC, "PCTL" aspires to and is actively engaged in preparations for up-listing its common stock to a national securities exchange. The Company established entry into its target markets with commercially-viable products and now prepares to gain market share.

PCT Corp's business mission is to profitably provide state-of-the-art Electro-Chemical Activation equipment, disinfecting fluid solutions and PCT Corp's patented tracking system to hospitals and other facilities for the documentable remediation of Hospital Acquired Infections (HAI's) from organisms such as *Clostridium difficile* (C. diff.), MRSA, VRE, CRE, *Klebsiella pneumoniae*, and *Pseudomonas*, as well as to sell ECA fluid solutions to agricultural markets for the remediation, control and suppression of microbial contamination and disease of certain commercial crops. The Company's primary fluid solution, branded Hydrolyte®, is an EPA registered "hospital-level" disinfectant effective against common healthcare pathogens such as Tuberculosis (TB), HIV-1, Hepatitis C, Norovirus, Rhinovirus, Influenza A, *Candida albicans*, and more; food processing bacteria including *E. coli*, *Listeria*, and *Salmonella*; and organisms of veterinarian concern such as parvovirus, distemper and *Bordetella*. PCT Corp.'s proprietary equipment product line includes: 1) PCT Hydrolyte® Generators, 2) PCT Annihilyzer® Infection Control Systems, and 3) SurvivaLyte® equipment. The Hydrolyte® Generators produce large volumes of electrolyzed water for the agriculture, oil and gas, and fluid distribution markets. The Annihilyzer® Infection Control Systems, which boast patented RFID material tracking technology, Electrostatic Smart Applicators, on-site automated ECA generators, and Green Seal standards containing stringent performance, health, and sustainability criteria, are ideal for hospitals and healthcare facilities. The SurvivaLyte® unit is a portable, small volume generator with applications such as disaster recovery, emergency preparedness, remote on-site needs, farm and ranch, and personal use. PCT Corp's unique patented systems and human-safe products provide next-generation cleaning, sanitizing, disinfecting and decontaminating fluid solutions to the ever-present problems of microbial infection and infestation.

Forward-Looking Statements

This press release contains "forward-looking statements" as defined in Section 27A of the Securities Act of 1933, as amended, and Section 21B of the Securities Exchange Act of 1934, as amended. Any statements that express or involve discussions with respect to predictions, expectations, beliefs, plans, projections, objectives, goals, assumptions or future events or performance are not statements of historical fact and may be "forward-looking statements."

Such statements are based on expectations, estimates and projections at the time the statements are made that involve a number of risks and uncertainties, which could cause actual results or events to differ materially from those presently anticipated. Such statements involve risks and uncertainties, including but not limited to: any implied or perceived benefits resulting from the sale of new equipment to an existing food processing customer, the continued positive results relating to the installation of large volume and/or Annihilyzer® Infection Control Systems in hospitals; the results of any manufacturers' representative and/or license agreements, actual sales revenue to be derived from agreements; PCT LTD's and its subsidiary's business prospects; PCT LTD's ability to raise sufficient funds to satisfy its working capital requirements; the ability of PCT LTD to execute its business plan or list its common stock on a national stock exchange; benefits of the Annihilyzer® Infection Control Systems, Hydrolyte® generators and fluids; any other effects resulting from the information disclosed above; risks and effects of legal and administrative proceedings and government regulation; future financial and operational results; competition; general economic conditions; and the ability to manage and continue growth. Should one or more of these risks or uncertainties materialize, or should underlying assumptions prove incorrect, actual outcomes may vary materially from those indicated.

Important factors that could cause actual results to differ materially from the forward-looking statements PCT LTD makes in this press release include market conditions and those set forth in reports or documents it files from time to time with the United States Securities Exchange Commission. PCT LTD undertakes no obligation to revise or update such statements to reflect current events or circumstances after the date hereof or to reflect the occurrence of unanticipated events.
